Owing to the great demand for this preparation, to the exicut that over "four million" buttles have been sold, many chesp imitations are being offered the public by some druggists, whose only delire is to benefit themselves instead of their customer. When you call for this great remedy, Miller's Antiseptic Oli (known as Shake Oll) they may say, on, yes, we have it, but did you ever try this article? So and so says it is much better than that; in fact, we think so, and guarantes it. Now listen; you should know that the reason this druggist gives you this little spici in such a nice manner is because he mekes more money on the article he tries to substitute. So he is benefited, not you. Don't be an easy mark—"get what you call for." Miller's Antiseptic Oli (known as Shake Oti) is said to be without an equal for Iheumatism, Neuralria, Lumbago, Sere Throat. It's the only one you read about in the newspapers, demand it. Don't trade with druggists who insist on you taking substitutes. See that the out, "Siade in the U.S. A.," is on the top of every carton; all ethers are imitations. Ruddy Cheeks-Sparkling Eyes -Most Women Can Have Says Dr. Edwards, a Well-Known

Ohio Physician Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waster and poisonous matter in one's system. If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Mr. Campanini and the Chicago Opera Association said goodby to us on Saturday. Amelita Galli-Curoi, singing Lucia at the matinee, drew an enormous audience and aroused rare enthusiasm.
